Abdallah Mahmoud Zakaria

Front End Developer

Portfolio • GitHub • LinkedIn

abdallahzeko8@gmail.com
+201028527723
Al Mansoura, Egypt

Highly motivated and results-oriented Front-End Developer with 3 years of professional experience in designing, developing, and deploying dynamic and responsive user interfaces. Proven ability to translate design concepts and wireframes into high-quality, performant, and accessible code.

Education

Bachelor of Science in Computer Science at Al Mansoura University, Al Mansoura, Egypt

September 2019 - July 2023

Grade: Good

Experience

Front End Developer at Awamer Al Shabaka , Al Mansoura, Egypt

September 2022 - November 2025 • ↗

- I spearheaded the team's transition from using UI libraries/components to adopting a unified framework approach. I launched the first project using Nuxt, which resulted in the entire team standardizing on the Vue framework
- I contributed to over 25 internal projects, including those utilizing the Nuxt framework and others developed without any specific framework (Vanilla JS/HTML/CSS)
- I assisted in building the Front-End team, which expanded from 4 to 14 members

Skills

Front End: Html, Css, Bootstrap, Tailwind, Sass, Jq, Javascript, Vue, Nuxt, Primevue, Vuetify, React, Next

Tools: Git, Fcm, I18n, Pinia , Google Map, Xd, Figma, Postman and Swagger

Projects

Athathe • ↗

An online marketplace designed for the sale of all types of household goods across the Kingdom of Saudi Arabia (KSA). The platform operates on a classifieds model, allowing individual merchants to advertise their products directly to potential buyers. It includes an integrated on-site chat feature connecting the seller and buyer to facilitate and streamline the purchasing process

Technical Tools: HTML, CSS, JS, PrimeVue, Nuxt 3, Fcm, i18n , Pinia State Management

Murouj Store • ↗

This is a dedicated e-commerce website created specifically for Murooj International Pastry Company to facilitate the sale of pies, all types of pastries, baked goods, and cakes across all Arab countries

Tools: HTML, CSS, JS , PrimeVue, Nuxt 3, i18n , Pinia State Management, Google Maps

Saudi Cycling Federation • ↗

An official government website for the Saudi Cycling Federation. The platform showcases all information related to the sport of cycling and the Federation's activities, displays upcoming competitions, and allows competitors to register for the Federation's events held within the Kingdom.

Sana Al-allm • ↗

An interactive e-learning platform designed to facilitate learning by offering online educational courses. The platform aggregates and hosts courses originating from all universities across the Kingdom of Saudi Arabia (KSA).
