

Abdallah Mahmoud Zakaria

Front End Developer

abdallahzeko8@gmail.com • +201028527723 • Al Mansoura, Egypt

[Portfolio](#) • [GitHub](#) • [LinkedIn](#)

Profile

Highly motivated and results-oriented Front-End Developer with +3 years of professional experience in designing, developing, and deploying dynamic and responsive user interfaces. Proven ability to translate design concepts and wireframes into high-quality, performant, and accessible code.

Education

Bachelor of Science in Computer Science at Al Mansoura University, Al Mansoura, Egypt

September 2019 - July 2023

Grade: Good

Experience

Front End Developer at [Awamer Al Shabaka](#), Al Mansoura, Egypt

September 2022 - November 2025

- I spearheaded the team's transition from using UI libraries/components to adopting a unified framework approach. I launched the first project using Nuxt, which resulted in the entire team standardizing on the Vue framework
- I contributed to over 25 internal projects, including those utilizing the Nuxt framework and others developed without any specific framework (Vanilla JS/HTML/CSS)
- I assisted in building the Front-End team, which expanded from 4 to 14 members
- Played a role in supporting the company's digital transformation by developing and improving web-based systems that streamlined internal workflows and business operations.

Front End Developer at [National Vision Media](#), Al Mansoura, Egypt

January 2026 - Present

- Contributed to the development and enhancement of the company's internal management system, covering task management, attendance, financial operations, and payroll processes.
- Worked on an educational management system designed to manage and organize courses, supporting the company's training and learning operations.
- Contributed to the development of more than 5 projects, delivering responsive and user-friendly interfaces across different business requirements.

Projects

Basmat La3eb • [Live Demo](#)

A smart sports platform designed to transform academy management into a seamless digital experience. It connects academy management, coaches, players, and parents in one integrated system, making it easier to manage training, track player development, handle subscriptions, and streamline communication — all within a single platform.

Tools: React, JavaScript, Tailwind CSS, and Shadcn UI.

Lavander – Flowers & Home Décor E-commerce • [Live Demo](#)

A modern e-commerce platform for flowers and home décor, allowing customers to browse products by category, view detailed product information, manage their shopping cart, and complete secure online purchases through an intuitive and responsive user experience.

Tools: Nuxt 3, PrimeVue, i18n , Pinia State Management, Google Maps

Hadanco • [Live Demo](#)

Hadanco is a modern industrial packaging platform that showcases a comprehensive range of packaging materials, tools, and machinery, helping businesses explore reliable and cost-effective packaging solutions through a seamless digital experience.

Tools: React, JavaScript, Tailwind CSS, and Shadcn UI.

KitchenKey – Kitchen E-commerce Platform • [Live Demo](#)

An e-commerce platform for showcasing and selling modern kitchen designs and accessories. The platform enables customers to browse products by category, explore detailed product information, submit inquiries, and enjoy a seamless, responsive shopping experience across all devices.

Tools: Nuxt 3, PrimeVue, i18n , Pinia State Management, Google Maps

Sana Al-allm • [Live Demo](#)

An interactive e-learning platform designed to facilitate learning by offering online educational courses. The platform aggregates and hosts courses originating from all universities across the Kingdom of Saudi Arabia (KSA).

Tools: HTML, CSS, JS , Jq, Bootstrap

Saudi Cycling Federation • [Live Demo](#)

An official government website for the Saudi Cycling Federation. The platform showcases all information related to the sport of cycling and the Federation's activities, displays upcoming competitions, and allows competitors to register for the Federation's events held within the Kingdom.

Murouj Store • [Live Demo](#)

This is a dedicated e-commerce website created specifically for Murooj International Pastry Company to facilitate the sale of pies, all types of pastries, baked goods, and cakes across all Arab countries

Tools: Nuxt 3, PrimeVue, i18n , Pinia State Management, Google Maps
